FIRST COUNT FOR PATENT INFRINGEMENT ('999 PATENT)

12. Biogen realleges, and incorporates in full herein, each preceding paragraph.

13. The U.S. Patent and Trademark Office ("PTO") issued the '999 patent on January 22, 2008, entitled "Dimethyl Fumarate for the Treatment of Multiple Sclerosis." The '999 patent identifies Rajendra Kumar Joshi and Hans-Peter Strebel as inventors of the claimed subject matter. A copy of the '999 patent is attached hereto as Exhibit A.

14. Biogen International GmbH is the owner of the '999 patent by virtue of assignment.

15. The '999 patent expires on May 18, 2020, which includes 202 days of Patent Term Adjustment under 35 U.S.C. § 154(b), excluding any pediatric exclusivity or patent term extension.

16. The '999 patent is directed to and claims, *inter alia*, methods of treating multiple sclerosis.

17. The '999 patent is listed in Approved Drug Products with Therapeutic Equivalence Evaluations ("the Orange Book") for New Drug Application ("NDA") No. 204063 for dimethyl fumarate delayed-release capsules.

18. The FDA approved NDA No. 204063 on March 27, 2013, for the treatment of relapsing forms of multiple sclerosis.

19. Dimethyl fumarate delayed-release capsules are marketed in the United States under the trademark Tecfidera[®].

20. Upon information and belief, Zydus submitted ANDA No. 210538 to the FDA, under Section 505(j) of the Act, 21 U.S.C. § 355(j), seeking approval to manufacture, use, import, offer to sell and sell dimethyl fumarate delayed-release capsules containing 120 mg and 240 mg of dimethyl fumarate ("Defendant's generic products") in the United States.

21. Biogen received a letter from Zydus dated June 1, 2017 ("the Notice Letter"), purporting to include a Notice of Certification for ANDA No. 210538 under 21 U.S.C. § 355(j)(2)(B)(ii) and 21 C.F.R. § 314.95(c) as to the '999 patent. The Notice Letter did not allege non-infringement as to at least one claim of the '999 patent.

22. Zydus thus has actual knowledge of the '999 patent.

23. Upon information and belief, Defendant's generic products, if approved and marketed, will infringe, either literally or under the doctrine of equivalents, at least one claim including at least claim 1 of the '999 patent under at least one of 35 U.S.C. § 271(a), (b), and/or (c).

24. Upon information and belief, under 35 U.S.C. § 271(e)(2)(A), Zydus has infringed at least one claim including at least claim 1 of the '999 patent by submitting, or causing to be submitted, to the FDA, ANDA No. 210538 seeking approval to manufacture, use, import,

offer to sell or sell Defendant's generic products before the expiration date of the '999 patent. Upon information and belief, the products described in ANDA No. 210538 would infringe, either literally or under the doctrine of equivalents, at least one claim including at least claim 1 of the '999 patent under 35 U.S.C. § 271(e)(2)(A).

25. Upon information and belief, Zydus will manufacture, market, import, use, sell and/or offer to sell Defendant's generic products in the United States in connection with ANDA No. 210538 upon approval.

26. Upon information and belief, physicians and/or patients will directly infringe at least one claim including at least claim 1 of the '999 patent by the use of Defendant's generic products upon approval.

27. Upon information and belief, upon approval, Zydus will take active steps to encourage the use of Defendant's generic products by physicians and/or patients with the knowledge and intent that Defendant's generic products will be used by physicians and/or patients, in a manner that infringes at least one claim including at least claim 1 of the '999 patent, for the pecuniary benefit of Zydus. Pursuant to 21 C.F.R. § 314.94, Zydus is required to copy the FDA approved Tecfidera[®] labeling. Upon information and belief, Zydus will thus induce infringement of at least one claim including at least claim 1 of the '999 patent.

28. On information and belief, if the FDA approves ANDA No. 210538, Zydus will sell or offer to sell its generic products specifically labeled for use in practicing at least one claim including at least claim 1 of the '999 patent, wherein Defendant's generic products are a material part of the claimed invention, wherein Zydus knows that physicians will prescribe and patients will use Defendant's generic products in accordance with the instructions and/or label provided by Zydus in practicing at least one claim including at least claim 1 of the '999 patent, and

wherein dimethyl fumarate delayed-release capsules are not staple articles or commodities of commerce suitable for substantial non-infringing use. Upon information and belief, Zydus will thus contribute to the infringement of at least one claim including at least claim 1 of the '999 patent.

29. Upon information and belief, Zydus's actions relating to Zydus's ANDA No. 210538 complained of herein were done by and for the benefit of Zydus.

30. If Zydus's marketing and sale of generic dimethyl fumarate delayed-release capsules prior to expiration of the '999 patent and all other relevant activities are not enjoined, Biogen will suffer substantial and irreparable harm for which there is no adequate remedy at law.

SECOND COUNT FOR PATENT INFRINGEMENT ('514 PATENT)

31. Biogen realleges, and incorporates in full herein, each preceding paragraph.

32. The PTO issued the '514 patent on March 19, 2013, entitled "Treatment for Multiple Sclerosis." The '514 patent identifies Matvey E. Lukashev and Gilmore O'Neill as inventors of the claimed subject matter. A copy of the '514 patent is attached hereto as Exhibit B.

33. Biogen MA Inc. is the owner of the '514 patent by virtue of assignment.

34. The '514 patent expires on February 7, 2028, excluding any pediatric exclusivity.

35. The '514 patent is directed to and claims, *inter alia*, methods of treating multiple sclerosis.

36. The '514 patent is listed in the Orange Book for NDA No. 204063 for dimethyl fumarate delayed-release capsules.

37. The Notice Letter dated June 1, 2017 purported to include a Notice of Certification for ANDA No. 210538 under 21 U.S.C. § 355(j)(2)(B)(ii) and 21 C.F.R.

§ 314.95(c) as to the '514 patent. The Notice Letter did not allege non-infringement as to at least one claim of the '514 patent.

38. Zydus thus has actual knowledge of the '514 patent.

39. Upon information and belief, Defendant's generic products, if approved and marketed, will infringe, either literally or under the doctrine of equivalents, at least one claim including at least claim 1 of the '514 patent under at least one of 35 U.S.C. § 271(a), (b), and/or (c).

40. Upon information and belief, under 35 U.S.C. § 271(e)(2)(A), Zydus has infringed at least one claim including at least claim 1 of the '514 patent by submitting, or causing to be submitted, to the FDA, ANDA No. 210538 seeking approval to manufacture, use, import, offer to sell or sell Defendant's generic products before the expiration date of the '514 patent. Upon information and belief, the products described in ANDA No. 210538 would infringe, either literally or under the doctrine of equivalents, at least one claim including at least claim 1 of the '514 patent under 35 U.S.C. § 271(e)(2)(A).

41. Upon information and belief, physicians and/or patients will directly infringe the '514 patent by the use of Defendant's generic products upon approval.

42. Upon information and belief, upon approval, Zydus will take active steps to encourage the use of Defendant's generic products by physicians and/or patients with the knowledge and intent that Defendant's generic products will be used by physicians and/or patients, in a manner that infringes at least one claim including claim 1 of the '514 patent, for the pecuniary benefit of Zydus. Pursuant to 21 C.F.R. § 314.94, Zydus is required to copy the FDA approved Tecfidera[®] labeling. Upon information and belief, Zydus will thus induce the infringement of at least one claim including at least claim 1 of the '514 patent.

43. On information and belief, if the FDA approves ANDA No. 210538, Zydus will sell or offer to sell its generic products specifically labeled for use in practicing at least one claim including at least claim 1 of the '514 patent, wherein Defendant's generic products are a material part of the claimed invention, wherein Zydus knows that physicians will prescribe and patients will use Defendant's generic products in accordance with the instructions and/or label provided by Zydus in practicing at least one claim including at least claim 1 of the '514 patent, and wherein dimethyl fumarate delayed-release capsules are not staple articles or commodities of commerce suitable for substantial non-infringing use. Upon information and belief, Zydus will thus contribute to the infringement of at least one claim including at least claim 1 of the '514 patent.

44. Upon information and belief, Zydus's actions relating to Zydus's ANDA No. 210538 complained of herein were done by and for the benefit of Zydus.

45. If Zydus's marketing and sale of generic dimethyl fumarate delayed-release capsules prior to expiration of the '514 patent and all other relevant activities are not enjoined, Biogen will suffer substantial and irreparable harm for which there is no adequate remedy at law.
